# What is Community Wellbeing?

Although we often think about wellbeing in terms of good physical and mental health, it can also describe the wider conditions we need as individuals and communities to have a better quality of life, healthier environment and increased prosperity.

Considering all the aspects of community wellbeing together help us to identify actions that can be undertaken by communities alongside local and national governments.

# How did we create this draft Wellbeing Vision?

1

## Workshop

PPN Members were invited to attend Community Wellbeing workshops.

At these workshops the Community Wellbeing concept was presented.

2

## Asset Mapping

Working in groups, attendees then highlighted the “assets” and aspects of their community that they wish to preserve and protect for current and future generations.

3

## Wellbeing vision

Using the 6 Community Wellbeing headings, attendees shared what they (and the organisations they work for) considered to be important for their community’s wellbeing.

4

## Consultation

Following the workshop, an online consultation was shared with members who were unable to attend the workshops.

They were provided the opportunity to answer the same questions asked at the workshop.

5

## Draft Vision

The PPN resource workers and secretariat members then analysed the responses from the workshop and online consultation.

They then produced the draft wellbeing statements.

# What is important for Community Wellbeing in <insert name of Municipal District/ City/ County>?

Alongside the overarching vision for <insert name of the Municipal District/ City/ County>, we developed a Vision for Community Wellbeing for each community wellbeing “domain”.

These were developed by reviewing and analysing the responses from the workshop and online consultation.

The PPN resource worker and secretariat members grouped the responses into common themes and issues. They translated these into “high-level” statements.

Specific issues mentioned are not included in the statement but these will be shared with PPN Reps working on Local Committees.
