Why are we collecting the views of community groups?

The <insert name> PPN is working with its members to produce a shared vision for the future wellbeing of the <insert county/ municipal district/ city name> for this and future generations. This vision will be used to inform the work of the PPN and its representatives.

Community wellbeing combines a number of issues such as health, social and community development, the environment and public participation. All the different aspects of community wellbeing are captured in the diagram set out below. We want to hear your organisation's or group's ambitions and aspirations for our community around these issues.

As part of the consultation process <insert name> PPN has held workshop<s> in <insert locations>. The inputs made by representatives of PPN member groups at <that workshop or those workshops> are presented here for your information.

There is now a 2-week opportunity for groups that were not able to attend the workshops, or who were present but have additional inputs they want to make, to contribute their views. This can be done online at <insert link to online form> or in writing (please see the form at the end of this document).

All the responses received will be collected and considered with those from the workshop<s> (presented here) and incorporated into a Draft Vision for Community Wellbeing for the <insert name> PPN for This and Future Generations. This draft vision will be made available for feedback from all PPN member groups before being finalised and published.
